

WE'LL PAY YOU NEXT YEAR

Identify your bad debtors now or wave them goodbye until 2010.

This time of year people tend to take a holiday from paying their debts to you.

Unfortunately holidays are the greatest excuse to avoid payment, causing a major blow to your cash flow at the worst possible time. Now is your one opportunity to identify the problem and keep your business on track. If that's not enough incentive, Results are offering lower than ever rates to solve your problems now.

ACT BEFORE DEC 18 & SAVE OVER 50%*

We can identify your current and future problems with a debtors ledger review, plus send up to 5 letters of demand to get you fast results for only \$350*. That's a saving of up to \$500, but only until December 18.

ONE PHONE CALL & IT'S DONE.

We know your time is important, so you can do everything via phone conference, allowing you to hand the problems over to us quickly and get back to business.

The facts are simple... the earlier you act, the greater the rate of recoverability. With a small cost and a small amount of your time, you can save yourself a lot of money and headaches... but call Results now or wave your debtors goodbye.
